Response to Amendment

The amendment filed on 02/25/05 is sufficient to overcome the prior art reference.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1, 12 and 27 are allowable because the prior art of record fails to disclose recited fitting to open the polymer-to metal seal, the prior art US Patent has the seal but no teaching for opening it and the valve core including a receptacle opposite the valve element, the receptacle for receiving a fitting to open the polymer-to-metal seal (see claim 1); first and second locking means disposed in the first and second slots and within the twist-to open valve to restrain the valve core from movement out of the valve housing, The prior art US Patent 6,273,397 teaches only one locking element instead of two. See claims (12 and 17).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
